OSHA Data Information Services (ODIS) is a premier compiler of consumer and business information that specializes in sourcing public records from federal, state, county, municipal and international governments. Its experience with the Freedom of Information Act (FOIA) and equivalent state and international open public records laws, along with long standing relationships with government agencies, offers efficiencies unavailable to those seeking to obtain government sourced data independently.

Connect with active trucking companies that have registered with the US Department of Transportation. These women offer a unique opportunity to market various products.

The file includes and may be segmented by type of cargo, number and type of motorized vehicle, number of trailers, vehicle ownership (leased vs owned), fleet size and number of drivers.
