Phone number	+ \$50.00/M

OSHA Data Information Services (ODIS) is a premier compiler of consumer and business information that specializes in sourcing public records from federal, state, county, municipal and international governments. Its experience with the Freedom of Information Act (FOIA) and equivalent state and international open public records laws, along with long standing relationships with government agencies, offers efficiencies unavailable to those seeking to obtain government sourced data independently.

The information available includes company name, address, reason for inspection, inspection type and scope, inspection opening date, total number of violations, OSHA standard cited and penalties.

Contact companies who have registered with the DOT as hazardous materials carriers or shippers. These companies transport hazardous goods overland, inter and intra-state.
