OSHA Data Information Services (ODIS) is a premier compiler of consumer and business information that specializes in sourcing public records from federal, state, county, municipal and international governments. Its experience with the Freedom of Information Act (FOIA) and equivalent state and international open public records laws, along with long standing relationships with government agencies, offers efficiencies unavailable to those seeking to obtain government sourced data independently.

The OSHA Habitual Violators list is comprised of companies that have been cited for one or more violations on at least two separate occasions during inspections performed by OSHA (Occupational Safety and Health Administration).

These companies are constantly in the hot seat to rectify outstanding violations and substandard policies in order to regain compliance with OSHA's standards and are sorely in need of products and solutions designed to facilitate the maintenance of a safe and healthy workplace.

The information available includes: company name and address, federal region, OSHA area/district office, SIC code, inspection type, inspection scope, inspection opening date, total number of violations, violation type, total penalties, standard cited and union status. .
