OSHA Data Information Services (ODIS) is a premier compiler of consumer and business information that specializes in sourcing public records from federal, state, county, municipal and international governments. Its experience with the Freedom of Information Act (FOIA) and equivalent state and international open public records laws, along with long standing relationships with government agencies, offers efficiencies unavailable to those seeking to obtain government sourced data independently.

Reach companies that have been contacted by OSHA (Occupational Safety and Health Administration) due to their high rate of injury or illness, as per their request for the company's injury rate data. These High Hazard companies are in need of a wide array of job safety products and information.

These prospects will be highly responsive to a variety of safety product offers, training programs, Human Resource supplies, etc.
