### Federal Grant Recipients

Entities such as non-profits and local governments that receive \$500,000 or more in grants annually are required to have audits conducted in accordance with the OMB Circular A-133, the source for this list. These are larger non-profits, typically with an Executive Director or CFO level identified with name, title, address, phone and email. Because they are audited, they have hired CPAs. They are ideal candidates for software and hardware to effectively manage their operation.
